**peace of mind**  
this holiday season

**WHAT OUR CLIENTS SAY**

*"Our current client base consists primarily of licensed health practitioners that receive their orders within two days. Enroute integrates with our current software and carrier choices which enable us to simplify the entire operational process without a risk to the service level the clients have come to expect. For this software to not be used, just doesn't make any sense to me."*

# Sound Simple?

*With three tiers of web-based solutions, Enroute can help you achieve peace of mind this holiday season. Here's how:*

**SHIP FASTER**

- eliminate individual carrier work stations & ship with multiple carriers in a single web-browser based solution

**SHIP SMARTER**

- effortlessly choose the best carrier & service based on time-in-transit, reliability or price with pre-determined business rules

**SHIP BETTER**

- track packages & generate manifest reports for each carrier, available 24 hours a day from a single location

**Get on your way to smarter shipping.**
