

## ENROUTE HELPS BUSINESSES SHIP PACKAGES MORE EFFICIENTLY

Finding ways to save money can be challenging. With Enroute's web-based solutions, businesses are saving up to 30% of their parcel shipping costs while improving shipment quality and carrier reliability. Shipt! Analytics enables import of customer invoice data into a web-accessible dashboard, providing businesses immediate insight into the efficiency of their shipping processes. Shipt! Portal leverages the data realized in Shipt! Analytics to deliver an end-to-end shipment execution solution for selecting the right carrier and right service at the point of shipment – whether shipping across the state or around the world.

- ➔ Immediate ROI
- ➔ Up to 30% savings
- ➔ No upfront costs

## WHAT OUR CLIENTS SAY

*"Shipt! Analytics has allowed us to understand where our dollars are being spent. Now we use business rules with Shipt! Portal to reduce our shipping costs. Enroute is an easy and simple-to-use solution."*

Gina Kavesh, Co-Owner  
 Renton Western Wear | Shipt! Portal Customer

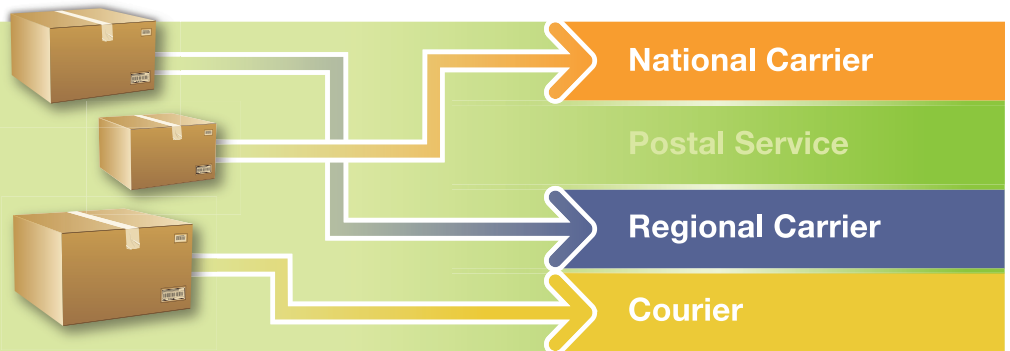

*"Our current client base consists primarily of licensed health practitioners that receive their orders within two days. Enroute integrates with our software and carrier choices which enable us to simplify the entire operational process without a risk to the service level our clients have come to expect."*

Leeta Radcliff, Director of Logistics  
 Natural Partners, Inc. | Shipt! Portal Customer

*"Since using the Enroute solution, our warehouse operations have become faster and more efficient. I appreciate the remote assistance when installing the tools directly to our warehouse work stations. Thank you, Enroute!"*

Billy Gutierrez, Warehouse Manager  
 Safor Sports | Shipt! Portal Customer

Enroute determines the **best service for each package**, immediately improving your bottom line.

## CUSTOMER TESTIMONIAL

### Zumiez Corporation

Zumiez is a mall-based specialty retailer of action sports related apparel, footwear, and equipment with more than 370 stores primarily located in shopping malls in 34 states, headquartered in Everett, WA. We cater to young men and women between the ages of 12 and 24 who want brands representing a lifestyle centered on activities that include surfing, skateboarding, and snowboarding. We also have a busy web store at [www.zumiez.com](http://www.zumiez.com).

One key set of shipping challenges at Zumiez is getting the constant flow of new inventory from our single distribution center in Corona, CA to stores as fast as possible, for the best rate possible, all with a high level of customer service – especially at the individual store level. As a trend driven business, getting products on the selling floor quickly is a high priority. We also need to be able to process these inventory shipments and website orders quickly and efficiently, especially give the volume of shipments we do. Another key challenge is having insight into our shipping costs and carrier performance to help identify ways to cut transit times and save money on our annual shipping expenditure.

We have been working with Enroute for over a year and they are providing us valuable insight into our shipping experience via their Shipt! Analytics product. Their system aggregates and presents shipping data that we can quickly analyze for our monthly average of 90,000 parcels sent via multiple carriers. We would never find the time to collect and organize this data, let alone analyze it, if we did it ourselves.

Now that we understand our shipping patterns, we use Shipt! Portal to execute all of our shipments. Shipt! Portal has provided us with lower-cost carrier options, as well as eliminated user error, reduced carrier surcharges and sped up our daily shipping productivity.

Enroute first took the time to understand our needs and priorities as a whole, and then provided us with solutions to help us reach our shipping goals more quickly and easily. Enroute is good business partner for us and we see our relationship continuing and growing.

Best regards,  
 Will Eaton, Logistics Manager  
 Zumiez Inc. | Shipt! Portal Customer
